# ERC20 TOKEN

## WHAT IS AN ERC20 TOKEN?

*ERC20 is a token (digital asset) that can represent anything — for example, securities and loyalty points. ERC20, the Ethereum token standard, is a technical standard used for smart contracts on the Ethereum blockchain. When you create a token, it can be easily exchanged on the internet and backed up with a digital asset.*

*ERC20 Ethereum tokens are built on ERC (Ethereum Request for Comments). This is a process used in the Ethereum community to define and specify different standards. Once something is defined as a standard and qualifies as an ERC, it becomes a standard across the platform.*

ERC20 tokens exist on the Ethereum platform. *Ethereum* itself consists of blockchains that are capable of storing transactions and a *virtual machine (EVM)* designed for running smart contracts.

Tokens live on the Ethereum blockchain. They benefit from its technology. Tokens are not independent and rely on Ethereum's blockchain and platform. The native currency on Ethereum platform is *Ether*. Besides *Ether*, it can also support other tokens, which can work like currencies.

## LEAGUE COMPETITIONS

### **FIFA**

The Fédération Internationale de Football Association (FIFA) was established behind the headquarters of the Union des Sociétés Françaises de Sports Athlétiques (USFSA) on Rue Saint Honoré 229 in Paris on May 21, 1904. Besides its worldwide institutions there are six confederations recognised by FIFA which oversee the game in the different continents and regions of the world.

### **UEFA**

The Union of European Football Associations (UEFA) was founded on 15 June 1954 in Basel, Switzerland after consultation between the Italian, French, and Belgian associations. UEFA is the administrative body for association football in Europe, although several member states are primarily or entirely located in Asia. It is one of six continental confederations of world football's governing body FIFA.

### **UEFA CHAMPIONS LEAGUE (UCL)**

The UEFA Champions League is an annual continental club football competition organised by the Union of European Football Associations (UEFA) and contested by top-division European clubs. It is one of the most prestigious tournaments in the world and the most prestigious club competition in European football, played by the national league champions (and, for some nations, one or more runners-up) of the strongest UEFA national associations.

Real Madrid is the most successful club in the competition's history, having won the tournament 13 times, including its first five seasons. Spanish clubs have accumulated the highest number of victories (18 wins), followed by England and Italy (12 wins apiece). England has the largest number of winning teams, with five clubs having won the title. The competition has been won by 22 clubs, 12 of which have won it more than once. The reigning champions are Real Madrid, who secured their 13th title in the competition after defeating Liverpool 3–1 in the 2018 final. Thus, they became the first team in the UEFA Champions League era to win the title for three years in a row.

### **UEFA EUROPA LEAGUE**

The UEFA Europa League is an annual football club competition organised by UEFA since 1971 for eligible European football clubs. Clubs qualify for the competition based on their performance in their national leagues and cup competitions. It is the second-tier competition of European club football, ranking below the UEFA Champions League.

The UEFA Europa League has been won by 28 clubs, 12 of which have won the title more than once. The most successful club in the competition is Sevilla, with five titles. The current champions are Atlético Madrid, after defeating Marseille in the final to win the 2017–18 UEFA Europa League.

## LEAGUE COMPETITIONS

### **EPL(ENGLISH)**

The Premier League is the organising body of the Premier League with responsibility for the competition, its Rule Book and the centralised broadcast and other commercial rights. However, we do not operate in isolation. We work proactively and constructively with our Member Clubs and the other football authorities to improve the quality of football, both in England and across the world. Each individual club is independent, working within the rules of football, as defined by the Premier League, The FA, UEFA and FIFA, as well being subject to English and European law.

On the 2017-2018 season, Manchester city are defending champions on 2017-2018 season. Wolverhampton wanderers, Cardiff city, and Fulham joined as the promoted clubs from the 2017-2018 EFL Championship. They replaced West Bromwich Albion, Swansea City and Stoke City who were relegated.

### **LALIGA (SPAIN)**

The Primera División, commonly known as La Liga and as La Liga Santander for sponsorship reasons with Santander is the top professional football division of the Spanish football league system. Administered by the *Liga Nacional de Fútbol Profesional* (English: *National Professional Football League*), also known as the *Liga de Fútbol Profesional* (LFP), La Liga is contested by 20 teams, with the three lowest-placed teams relegated to the Segunda División and replaced by the top two teams in that division plus the winner of a play-off.

62 teams have competed in La Liga since its inception. Nine teams have been crowned champions, with Real Madrid winning the title a record 33 times and Barcelona 25 times.

### **SERIE A (ITALIA)**

Serie A is a professional league competition for football clubs located at the top of the Italian Football league system. It has been operating for over eighty years since the 1929-1930 season. It had been organized by Lega Calcio until 2010, when the Lega Serie A was created for the 2010-2011 season.

Serie A is regarded as one of the best football leagues in the world and it is often depicted as the most tactical national league. Serie A was the world's second-strongest national league in 2014 according to IFFHS, and has produced the highest number of European Cup finalists: Italian clubs have reached the final of the competition on a record 27 occasions, winning the title 12 times. Serie A is ranked third among European leagues according to UEFA's league coefficient, behind La Liga, the Premier League and ahead of the Bundesliga and the Ligue 1.

## INTRODUCTION

YLIFE is a company founded by a group of football fans and cryptocurrency. The majority of us are one of the fans of football clubs on the European continent. Because of that love we implement it through our unique and interesting ideas in YLIFE. Our goal in absolute terms is to manage fairly in holding a healthy competition with our chain slogan "Supporters For YLife, YLife For Supporters".

In accordance with our vision of being a Fair Management Fair Competition, our team will continue to develop our management in a gradual and systematic manner in organizing healthy competitions that are unique and easy for everyone to follow. And it is not impossible that we will open a better plan for the future.

YLIFE tokens are committed to developing payment solutions for competition that is different from other cryptocurrency. This uses the ethereum blockchain protocol to achieve transfer payments on the basis of peer to peer. Innovative technology, governance structures and fair management provide YLIFE tokens with excellence more than other tokens. our team will provide transparency for payment management, financial management, Code management and competition operations and will maintain high standards honesty, ethical business conduct, and compliance with laws, rules and regulations that apply to users.

Birth and the early stages of YLIFE have been strongly supported by the establishment members, development team, competition experts, initial supporters. We would like to thank all those who have made extraordinary contributions to development of YLIFE tokens.

## OUR VISION

YLIFE Foundation is committed to developing ylife with football supporters in the world, third party services, developers and companies that together build a fair competition. The aim of the YLIFE Foundation is to innovate football competition experiences in real life. The YLIFE Foundation is a compatible ecosystem to develop, enhance and bridge all supporters in the world in a united entity. In addition, YLIFE has planned to provide solutions to problems from regularly competition operation.

### **Business Development:**

The YLIFE Foundation will refer to fair management practices in operating regulated competitions and choosing the right industry to implement YLIFE tokens in the business. In the future, YLIFE's foundation will provide business partners with a solution to reduce transaction costs and get more business development with a fair management.

### **Fair management Services**

The YLIFE foundation will provide a transparency for fair management, and business practices, and will maintain high standards of honesty, ethical business conduct and compliance with applicable laws, rules, and regulations.

To further make the YLIFE a truly open source community, the YLIFE foundation will eventually distribute 90% of the total YLIFE tokens to the All Supporters for business implementations, competition implementations, marketing promotions and linkages between the real world and blockchain world. The remaining 10% tokens will be allocated to the co-founder team, early backers, consultants, and development team.
